

SENIOR ARCHAEOLOGIST

Position Purpose

The purpose of the full time **Senior Archaeologist** is to provide senior technical oversight, direction of staff in both field and office-based environments, provide training and mentorship to junior staff members, and to assist with all aspects of archaeological permitting and assessment requirements as part of Yucwmenlúcwu heritage resources management program. Senior technical review, data QA/QC, and report review and production will be a key function of this position. Reporting directly to the Yucwmenlúcwu Heritage Manager, the Senior Archaeologist will work closely with the Heritage team.

This position will be both office and field based and will include travel to meetings as required. Training and mentorship opportunities will be provided to the successful candidate. This is a career track position, with the successful candidate forming an integral part of Yucwmenlúcwu Resource Management Team.

Minimum Requirements and Qualifications:

- Undergraduate degree in Archaeology or Anthropology with a minimum of 10 years' experience in consulting archaeology or academic equivalent
- Eligible for Field Director status in the Interior Plateau culture area under Bulletin 17 requirements of the BC Archaeology Branch
- Eligible to hold BC Heritage Conservation Act Section 12 or 14 permits in the Interior Plateau culture area
- Demonstrated understanding of the Heritage Conservation Act and permitting and assessment process
- Previous supervisory experience supervising archaeological impact assessments, archaeological excavations, and construction monitoring

Preferred Skills and Attributes:

- Eligible for Field Director status in the Northwest Coast and/or Subarctic Boreal Forest culture areas under Bulletin 17 requirements of the BC Archaeology Branch
- Eligible to hold BC Heritage Conservation Act Section 12 or 14 permits in the Northwest Coast and/or Subarctic Boreal Forest culture areas
- Specialization in any of the following subject areas: faunal analysis, remote sensing techniques, geoarchaeology, human osteology, or archives and museums accession and curation.
- Proven ability to mentor and train staff
- Ability to work in a fast paced, deadline-oriented environment
- Strong aptitude for technical writing and reporting
- Excellent interpersonal and communication skills
- Ability to work effectively and efficiently with a diverse team
- Discretion and respect for confidentiality
- Demonstrated proficiency managing and delivering projects on time and budget
- Previous experience working with a First Nation organization

- General understanding of the First Nations consultation process
- Positive, diplomatic, and understanding personality
- Basic knowledge of surficial geology and landforms
- Valid driver's license with clean abstract
